

What is Jumpstart?!?

High School ***Juniors and Seniors*** can get an early start on college by taking courses for college credit while still in high school. Jump-starting college in this way can save a student time and money while helping them become more familiar with college-level work, and give them a chance to explore career interests in more depth.

- **This tuition-free opportunity offers students a chance to experience a real college environment and evaluate their level of preparedness for college classes.**
- **Once enrolled students only pay for your textbooks.**
- **Interested students must pre-register. Space is limited**

Bryant & Stratton College is fully accredited by the Middle States Commission on Higher Education. Many of the professional curricula are also accredited by specialized agencies and have the ability to be transferred.

There are courses being offered in Business, Medical/Health, Criminal Justice and Network Technology. This is a great opportunity to explore a future career and get a feel for what one is interested in for free. Again, the cost of each course is \$0 and students only pay for the textbooks.

If interested, please contact:
